EPITHELIOM
OR SKIN CANCER.

For seven years I suffered with a sore on my face. Eight months ago a friend came to me and said, "You must determine to make an effort to prove that I was successful, and began to teach me the methods which he used. He agreed that since there had been no inflammation was affected, and I but improve after the first few bottles. At the end of eight months I was stronger, and able to do any kind of work. The cancer on my face began to decrease, and now it is gone. It is now a year, & it left—only a little scar marks the place.

I have had a cancer on my face for a year. Eight months ago I determined to remove it. I was successful, and the nose to the other. It has given me a great deal of pain at times burning and hurting and causing me to lose my appetite. I commenced using SWIFT'S Specific in May, and have used eight bottles. It has given me great relief, and has taken away and restoring my general health.
